Dear Legal Notice Department,

Monday, March 16, 2009

We, at Magnolia Clipping Service, wanted to take a moment to introduce ourselves. Magnolia Clipping Service is a newspaper clipping service and bid research and reporting service whose home office is located in the Metro Jackson, MS area. We also have a large office in Tuscaloosa, AL. We have been in business for 58 years offering coverage from five southern states. Although most of our clients come from referrals, when we see a company that does not subscribe to our service we sometimes send a sample Legal Notice Report.

Our reports are sent daily by email and are specific to a client's search profile. Since we do not know exactly what type of projects or items in which your company may be interested, the attached sample report of legal notices is one that we thought would come close to your services or products. It also may not reflect the timeliness in which bids are sent.

I'd be happy to hear from you, should you have any questions.

Sincerely,  
Joe Porter  
Magnolia Clipping Service

NOTICE TO BIDDERS SEALED PROPOSALS The Mayor and Alderman of the City of Vicksburg, Mississippi, will receive sealed proposals for C02 Conversion and Filter Upgrades at the Vicksburg Wastewater Treatment Plant until 9:00 o'clock a.m. local time on March 25, 2009, at the office of the City Clerk, City Hall, 1401 Walnut Street, Post Office Drawer 150, Vicksburg, Mississippi 39180. All proposals will be publicly opened and read aloud by the Mayor and Aldermen of the City of Vicksburg in Board meeting at 10:00 o'clock a.m. on March 25, 2009. Bidders are cautioned that the City Clerk does not receive the Daily U.S. Mail on or before 9:00 a.m. Bids will be time-stamped upon receipt according to City Clerk's time clock. The work in this project consists generally of replacing anthracite filter media, installation of valves, <\_site work\_>, pipe work and other related items at the Vicksburg Water Treatment Plant. All documents required for bidding purposes, including plans and specifications, may be obtained from Allen & Hoshall, Engineers Architects Planners, 713 South Pear Orchard Road, Suite 100, Ridgeland, Mississippi 39157 for a deposit of \$100.00 per set, none of which is refundable. A copy of the plans and specifications may be examined at: the Office of the Architect/Engineer, 713 South Pear Orchard Road, Suite 100, Ridgeland, Mississippi; City Hall, Vicksburg, Mississippi; Associated General Contractors Plan Room in Jackson, Mississippi; Associated Builders and Contractors Plan Room in Jackson, Mississippi. Each bid shall be accompanied by a Certified Check on a solvent bank or a Bidder's Bond issued by a Surety Company licensed to operate in the State of Mississippi, in the amount of five percent (5%) of the total bid price, as a guarantee that if the bid is accepted, the Bidder will enter into a contract and execute the Performance and Payment Bonds in the form and within the time specified. The successful Bidder will be required to execute a Performance Bond and a Payment Bond, each in the amount of 100 percent of the Contract, issued by a Surety Company licensed to operate in the State of Mississippi. Each Bidder shall have a Certificate of Responsibility to bid on contracts for public projects in which the bid price exceeds \$50,000.00 and for private projects in which the bid price exceeds \$100,000.00 as required by the laws of the State of Mississippi. Each Bidder shall show on the outside of the envelope containing his bid; his current

Certificate of Responsibility number and expiration date, or if applicable, a statement certifying that the bid enclosed does not exceed \$50,000.00 for a public project or \$100,000 for a private project; his name; and the name of the Contract for which the bid is submitted. Failure to show these items on the outside of the envelope containing the bid will result in the bid being returned to the Bidder unopened. Public funds are involved in this project. No Bidder may withdraw his bid for a period of sixty (60) days after date of actual bid opening, without Owner's consent. The City of Vicksburg, Mississippi reserves the right to reject any or all bids received, to waive any informalities or irregularities in the bids received, and to accept any bid which is deemed most favorable to the City. THE MAYOR AND ALDERMEN OF THE CITY OF VICKSBURG, MISSISSIPPI By: Walter W. Osborne, Jr., City Clerk Publish: 2/20, 2/27(2t)

MS - Picayune, MS

Picayune Item

SECTION 00009 ADVERTISEMENT FOR BIDS PROJECT NAME: Drainage Branch Debris Removal City of Picayune, Mississippi Sealed bids will be received by the City of Picayune, Department of Community Development, 2nd Floor, City Hall, at 815 North Beech Street, Picayune, Mississippi 39466. Bids shall be received up to 2:00 P.M. (local time) on March 16, 2009. Any bids received after 2:00 P.M. will be returned unopened. All bids which have been duly received will be publicly opened and read aloud at the Above address in the City of Picayune Council Chambers at 2:00 P.M. (local time) and on the same date. Description of Basic Work: The proposed work consists of cleaning the drainage branch of the debris and properly disposing of it, as indicated in the Plans and Specified in the Contract Documents. Principal Work Location: 1.) Vaughn Branch; 2.) Downs Branch; 3.) Haryey Branch; 4.) Monroe BVanch - East Canal; 5.) Monroe Branch - Fifth Street; and 6.) Sycamore Branch - Hwy 43 N. All of said locations are within the city limits of the City of Picayune and identified in the specifications. A copy of the project plans and specifications may be examined at the Office of the Engineer, Hartman Engineering, Inc., 105 Street A, Picayune, MS 39466; the City of Picayune, Department of Public Works and Department of Community Development, Picayune, MS; the F. W. Dodge Plan Room in Jackson, MS; and the bid form and schedule of bid items may be examined at the South Mississippi Contract Procurement Center, 1141 Bayview Avenue, Suite 401, Biloxi, MS. A copy of the project documents may be purchased at the Office of the Engineer, Hartman Engineering, Inc., 105 A Street, Picayune, Mississippi 39466 or at Hartman Engineering, Inc., 527 W. Esplanade Ave., Suite 300, Kenner, Louisiana 70065. A refundable deposit in the amount of \$50.00, payable to the Engineer, and a written receipt identifying the name and address of the requesting party will be required for each set of complete Bidding Documents requested by a prospective Bidder or any other person. Bidding Documents will be shipped only if the requesting party makes all arrangements and assumes responsibility for all charges. Refunds will be made in accordance with the Mississippi public bid law on documents returned within 10 calendar days in good condition. Each Contractor submitting a bid in excess of \$50,000.00 must show on his bid and on the face of the envelope containing the bid, his Certificate of Responsibility Number as required by Section 31-3-1, Mississippi Code of 1972. Bidders are advised that they will be required to state on the bid form that they have personally inspected and are familiar with the project site. Bids security in the amount of five percent (5%) of the total bid must accompany each Bid. A certified check or a bid bond is acceptable bid security. If bid bond is used, it shall be written by a surety or insurance company currently on the U.S. Department of the Treasury Financial Management Service list of approved bonding companies which is published annually in the Federal Register. All Bid Bonds must be accompanied by an appropriate power of attorney designating the Mississippi resident agent. The successful Bidder will be required to furnish a Performance Payment Bond guaranteeing faithful performance and of all bills. Method of Award: Unless all Proposals are rejected, the Owner will award the contract to the lowest and best, responsive, responsible contractor in accordance with State and Federal law or regulations, and in accordance with the "Notice to Bidders," and the Project documents. Minority and Women Business Enterprises are solicited and encouraged to bid on this contract as prime contractors and to make inquiries regarding potential subcontracting opportunities. The City of Picayune reserves the right to reject any or all bids, to waive any and all informalities, and to reject nonconformng, non-responsive, or conditional bids whichever is in the best interest of the city. The City of Picayune is an Equal Opportunity Employer. Please be advised that the term proposal and bid may be used interchangeably throughout the contract documents, but they shall have the same meaning. A pre-bid conference will not be held. The Awarded Contractor is to have required insurance and bond information to the City of Picayune within seven (7) calendar days for the signing of the contractual agreement. Greg H. Mitchell, Mayor City of Picayune Publish: February 22, 2009 and March 1,2009

LEGAL NOTICE PALMETTO WATER ASSOCIATION ADVERTISEMENT FOR BIDS PROJECT ID# 1604-0060 Sealed bids will be received by the Palmetto Water Association Board until 6:00 P.M., March 17, 2009, and thereafter publicly opened for 100kw Gaseous Fuel Stand-By Electric Power Systems (Generators for Community Well), at the office of Palmetto Water Association, 1612 County Road 41, Tupelo, Mississippi 38801. Specifications are as follows: 100kw GASEOUS FUEL STAND-BY ELECTRIC POWER SYSTEMS A. General 1. Provide a complete stand-by-electric power system consisting of new and current equipment to automatically provide emergency power to selected loads in the event of normal power interruption. 2. Successful Bidder shall be responsible for providing adequate technical supervision by factory trained representative of the system manufacturer to assure proper installation and connection of the system. These personnel shall perform initial start-up, operational testing, and Owner instructional training. 3. The complete stand-by-electric power system shall be warranted by the same manufacturer for two years from date of final acceptance. 4. Complete operation and maintenance manuals of the engine generator, automatic transfer switch and all accessories shall be provided. B. Instructions - Engine Generator Sets 1. The stand-by generating set shall have minimum continuous stand-by rating at 120/240 volts 3 phase of 100 kw at 0.8 power factor, 60Hz. Generator set shall have sufficient starting KVA to start all connected loads with maximum 30% voltage dip and shall recover to +/- 1% of rated voltage within four seconds. 2. Vibration isolators shall be provided between the engine generator and heavy duty steel base. 3. The generator set engine shall be LP gas fueled. The engine shall have an isochronous governed speed of 1800 rpm. The engine shall be liquid cooled with mounted radiator, fan and water pump. Full pressure lubrication shall be supplied by a positive displacement lube oil pump. The engine shall have air cleaner and fuel and oil filters with replaceable elements. Starting shall be by positive engagement solenoid shift-starting motors. Engine generator shall have minimum 35-ampere automatic battery charging alternator with solid-state voltage regulation. 4. The generator set alternator shall be salient-pole, reconnectable self-ventilated of drip-proof construction with amortisseur rotor windings skewed for smooth voltage waveform. Unit shall be connected to provide proper system voltage. The generator shall be directly connected to the flywheel housing with a semi-flexible coupling between flywheel and rotor with maintenance free bearing. Insulation material shall meet NEMA standards for Class H with epoxy varnish to be fungus resistant. Temperature rise of the rotor and stator shall be limited to 125 degrees Celsius. The excitation system shall be of brushless construction controlled by a solid-state voltage regulator with adjustable volts-per-hertz operation capable of maintaining voltage within +/- 1% at any constant load from 0 to 100% of rating. The regulator must be sealed from the environment and isolated from the load to prevent tracking when connected SCR loads. The generator shall comply with UL1446. 5. The generator shall be capable of sustaining at least 300% of rated current for at least 10 seconds under a three phase symmetrical short by inherent design or by the addition of a (PMG) permanent magnet pilot exciter. 6. Generator control panel must have analog instruments to monitor AC voltage, AC frequency, and percent of load. The analog engine instruments shall monitor oil

**Wednesday, February 25, 2009**

MS - Tupelo, MS

pressure, water temperature, battery voltage, fuel level, and run time/hour meter. Safety shutdowns shall be provided with red LED indication for overspeed, overcrank, low oil pressure, and high coolant temperature. Provide green LED indication of engine running. Control switch shall be provided for local and remote starting with 3 position run/off/remote switch. 7. Generator Set Auxiliary Equipment and Accessories: 100% rated Generator main line circuit breaker: set mounted and wired, UL listed, molded case thermal-magnetic type, rated at 320 amps, 3 pole, 240 volts. Field circuit breakers shall not be acceptable for generator overcurrent protection. Coolant heater: Engine mounted, thermostatically controlled, water jacket heater(s) for each engine. The heater(s) shall be sized as recommended by the equipment supplier. Heater voltage shall be 120VAC on heaters up to 2250 watts and 240VAC on heaters 2500 watts and larger. Starting and Control Batteries: Starting batteries, lead acid type, 12 volt DC, sized as recommended by the generator set manufacturer, shall be supplied for each generator set with battery cables and connectors. 12 Volt Battery Charger: A 5 amp voltage regulated battery charger shall be provided for each engine-generator set and shall include ammeter. Critical Exhaust muffler shall be provided: size and type as recommended by the generator set manufacturer. Exhaust system shall be mounted on top of enclosure according to the generator set manufacturers recommendations and applicable codes and standards. Weather Housing Enclosure: Factory assembled to generator set base. Housing shall provide ample air flow for generator set operation. The housing shall be constructed of 14 gauge galvanized steel with gray powder coat paint, stainless steel hardware, and hinged lockable access doors. 8. The engine generator shall be as manufactured by a reputable national manufacturer and shall meet the requirements of the NEC and all applicable local codes and regulations. All equipment shall be of new and current production by a manufacturer who has at least 20 years of experience building this type of equipment. Manufacturer must have local factory service technicians. 9. Execution: \*Factory Tests: Generator set factory tests on the equipment to be shipped, shall be performed at rated load. Generator sets that have not been factory tested will not be acceptable. Tests shall include: run at full load, maximum power, voltage regulation, transient and steady-state governing, single step load pickup, and safety shutdowns. \*On-Site Acceptance Test: The complete installation shall be tested for compliance with the specification following completion of all <\_site work\_>. Testing shall be conducted by representatives of the manufacturer with required fuel supplied by contractor. The engineer shall be notified in advance and shall have the option to witness the tests. Installation acceptance tests to be conducted on-site shall include a "cold start" test, a one hour load test with available site load. 10. SUBMITTALS - FOR REVIEW Complete list of equipment and materials proposed, with an adequate description of each item, shall be submitted prior to approval. C. Automatic Transfer Switch: \*Scope Furnish and install the Automatic Transfer Switch(s) rated 200 Amps 3 pole 240 volts with NEMA 3R enclosure. Transfer Switch supplied shall be a standard product of a manufacturer regularly engaged in the manufacture of Transfer Switches. The experience shall include applications of equipment of the same design and rating as the Transfer Switches specified. \*REFERENCES A. The latest revision of Standards listed below form a part of this Specification as engineering references where applicable. 1. MS - Biloxi, MS

D'iberville Press

SECTION 901 ADVERTISEMENT FOR BIDS Notice is hereby given that the City of Biloxi, Mississippi, will receive sealed bids at the Mayor's Office, City Hall, second floor, until 4:00 p.m., on Wednesday, the 8th day of April, 2009, for the following: BRODIE ROAD IMPROVEMENTS PROJECT NUMBER 889 Work on which proposals are invited consists of reconstructing approximately 5300 linear feet of roadway and installing sewer, water and drainage utilities. Location of said work is along Brodie Road in Biloxi, Mississippi. The maximum time allowable for completion of said project is Four Hundred Twenty (420) calendar days following the CITY'S written order to commence (Notice to Proceed). The successful bidder will be required to furnish a 100% Payment and Performance Bond if the bid equals or exceeds \$25,000. If the bid is less than \$25,000. If the bid is less than \$25,000, the City of Biloxi may elect to make a lump sum payment at the completion of the job, in which case a payment and performance bond shall not be required. Proposals must be accompanied by a Proposal Guaranty consisting of a Bid Bond, Cashier's Check or Certified Check in the amount of 5% of the amount of the bid. All persons having a contract with the City of Biloxi must adhere to the City's policy concerning non-discrimination without regard to race, creed, color, age, sex, national origin, or handicap. On bids which equal or exceed \$50,000, Certificate of Responsibility classification issued by the Mississippi State Board of Contractors shall be written on the outside of the envelope containing the bids. Bids of less than \$50,000 will be marked on the outside that the bid contained within does not exceed \$50,000. Bids which are for work outside of the classification listed for any bidder shall be returned unopened. Copies of the plans, specifications and proposal documents are on file with the City of Biloxi Engineering Division, which is located at 780 Esters Boulevard, Biloxi, Mississippi (the Public Works Maintenance Building), (228) 435-6269. Plans and specifications may be examined without charge during regular business hours (7:00 a.m. - 4:00 p.m., Monday - Friday), and may be obtained from the same office upon payment of \$75.00. This deposit will be refunded upon return of all documents in good condition within thirty (30) days of receipt of bids. No refunds will be made after the thirty (30) day period. Preference shall be given to resident contractors, and a nonresident bidder domiciled in a state, city, county, parish, province, nation or political subdivision having laws granting preference to

**Thursday, March 05, 2009**

MS - Biloxi, MS

local contractors shall be awarded Mississippi public contracts only on the same basis as the nonresident bidder's state, city, county, parish, province, nation or political subdivision awards contracts to Mississippi contractors bidding under similar circumstances. In order to ensure that Mississippi's so-called Golden Rule is followed, state law requires a non-resident bidder to attach to his bid a copy of his resident state's current law pertaining to such state's treatment of non-resident contractors. Resident contractors actually domiciled in Mississippi, be they corporate, individuals or partnerships, are to be granted preference over nonresidents in awarding of contracts in the same manner and to the same extent as provided by the laws of the state, city, county, parish, province, nation or political subdivision of domicile of the nonresident. In compliance with the laws of the State of Mississippi, in choosing materials for the project, the successful bidder shall be required to give preference to materials grown, produced, prepared, made or manufactured within the State of Mississippi. The foregoing notwithstanding, no preference shall be given to materials grown, produced, prepared, made or manufactured in the State of Mississippi when other materials of like quality produced outside the State of Mississippi may be purchased or secured at less cost, or any other materials of better quality produced outside the State of Mississippi can be secured at a reasonable cost. The Contractor shall not use any materials on the project that are grown, produced, prepared, made or manufactured outside of the United States. If such materials are not available, then those, which are grown, produced, prepared, made or manufactured outside the United States, may be used. BIDS SHALL BE DELIVERED TO THE MAYOR'S OFFICE, SECOND FLOOR, CITY HALL BUILDING, 140 LAMEUSE STREET, BILOXI, MISSISSIPPI, 39530. Bids shall be in letter form with the envelope and bid marked plainly BRODIE ROAD IMPROVEMENTS, PROJECT NUMBER BHQ, and shall be addressed to the Mayor's Office, P.O. Box 429, Biloxi, Mississippi 39533. In addition, the envelope shall list the Company Name and Address, and all applicable state and local license numbers. The City reserves the right to reject any and all bids and to waive any informality in the proposal accepted. Published by order of the Municipal Clerk, this the 2nd day of March, 2009.
